WHY THIS ROOM

SOME DECISIONS DON'T BELONG AT YOUR DESK

They belong in a room built for the people making them.

Every business reaches a point where the next five years will be defined not by how hard the team works, but by a handful of decisions the founder or CEO alone can make. Decisions about who sits at the table. Who you build with. What you say no to. How the business is structured to outlast its founder in every room. What kind of culture it becomes at scale. How growth gets funded without losing control. And when to move, when to wait, and when to walk away.

The Decision Room brings together a closed group of CEOs, founders and business leaders for a single, focused afternoon built around seven such decisions. Not a conference. Not a panel. A room.

WHO IT IS FOR

This conversation is designed for founders and business leaders who are past the early-stage hustle and now facing the harder questions: how to scale without losing what made the business work, and how to lead a company that is bigger than any one person in it.

THE PREMISE

Strategy tells you what to do. This room is about deciding what you will actually do next, and committing to it in front of people who will hold you to it.

THE AGENDA

7 DECISIONS

The themes that will shape the conversation, and your next five years.

01**PEOPLE**

Who you build with determines how far, and how fast, you can go.

02**PARTNERSHIPS**

The alliances that multiply your reach, and the ones that quietly dilute your vision.

03**STRATEGY**

The bets worth doubling down on, and the ones worth abandoning before they cost you more.

04**STRUCTURE**

The systems that let a business run without you in every single room.

05**CULTURE**

The invisible force that decides what your company becomes once you are no longer watching.

06**CAPITAL**

How you fund the next stage of growth without giving away the business you built.

07**TIMING**

Knowing when to move, when to wait, and when to walk away entirely.
